

## Seafreight

Kuehne + Nagel delivers highly flexible seafreight services through partnerships with leading carriers, as well as easy visibility and monitoring of freight movements via KN Login, our global information system. Our philosophy is to run the product in-house so that we control the cargo flow, transit times, costs and information accuracy.

Why is Kuehne + Nagel the number one seafreight services provider in the world? The key to our position at the pinnacle of the industry lies in our experience, expertise and global reach. We deliver highly flexible services through partnerships with leading ocean carriers. These well-established relationships guarantee capacity and the ability to adapt to growing seafreight trade volumes, quickly and efficiently.

With more than 400 seafreight experts in Eastern Europe and 7,500 globally, we are ready to help you find the right solution, customised to meet your unique requirements. So, regardless of the size your business, or your location, the chances are we will be able to meet your requirements, along with tailor-made rates to ensure value.
